DIRECTIONS FOR USE:

SITUATION	RATE	CRITICAL COMMENTS
1. Minimise antagonism to tank mixes with flowable herbicides. 2. Improve performance under adverse environmental conditions.	800 g/100 L of spray solution.	1. Half fill spray tank with clean water and start agitation. 2. Add Apparent Spray Grade Ammonium Sulphate 980 Herbicide Adjuvant granules to spray tank. 3. With agitation still running, add the required flowable herbicide to the tank and mix thoroughly. 4. Add the required amount of Glyphosate based product and the remaining water; mix thoroughly. 5. Add surfactant, if required, near the end of the filling process to minimise foaming. 6. Always maintain adequate agitation during application and use the tank mix promptly.

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

GENERAL INSTRUCTIONS

Apparent Spray Grade Ammonium Sulphate 980 Herbicide Adjuvant should be used with non selective herbicides only, as with some selective herbicides use may result in loss of selectivity and therefore crop damage. Ammonium Sulphate may be corrosive to metal parts of the sprayer. Thoroughly flush tanks, pumps and nozzles with water after use.

Apparent Spray Grade Ammonium Sulphate 980 Herbicide Adjuvant is a completely soluble product. However, in circumstances of high humidity this product may 'cake' when exposed to the air. Potential problems may include handling problems after the product is opened, storage problems, and problems with dissolution or blockage of spray nozzles in boom sprayer/equipment. To reduce the potential for caking, any opened, unused product should be immediately closed to limit exposure to the air. In the event that the product has caked, ensure the product is fully dissolved before spraying to avoid the potential for nozzle blockage. Dissolving the product through the top screen of the spray tank and ensuring the product is completely dissolved before spraying commences will eliminate the potential for nozzle blockage due to caked material.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a dry, cool, well-ventilated area out of direct sunlight.

Single rinse before disposal. Add rinsings to spray tank.

DO NOT dispose of undiluted chemicals on-site. Puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS:

Avoid contact with eyes and skin.

FIRST AID:

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone 13 1126.

SAFETY DATA SHEET:

Additional information is listed in the Safety Data Sheet, which can be obtained from the supplier.

CONDITIONS OF SALE

The use of Apparent Spray Grade Ammonium Sulphate 980 Herbicide Adjuvant being beyond the control of the manufacturer no warranty expressed or implied is given by AIRR Apparent Pty Ltd regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and AIRR Apparent Pty Ltd accepts with no responsibility for any consequences whatsoever resulting from the use of this product.

This product is not classified as hazardous according to the Global Harmonization System (GHS) classification.
