DIRECTIONS FOR USE

RESTRAINTS: NOT TO BE USED on horses that may be slaughtered for human consumption.

CONTRAINDICATIONS: This product is contraindicated for use on animals severely stressed or in ill health. This product should not be used on horse’s head forward of the ears. This product should not be applied as a single spot.

PRECAUTION: Facial skin contact may cause temporary tingling/burning.

DOSE RATE FOR CATTLE: 5mL per 100kg liveweight.

The following table may be used as a guide.

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

WITHHOLDING PERIODS:
CATTLE: MEAT Zero (0) days; MILK Zero (0) days
HORSES: NOT TO BE USED on horses that may be slaughtered for human consumption.

TRADE ADVICE

EXPORT SLAUGHTER INTERVAL (ESI): DO NOT USE less than 21 days before slaughter for export. The ESI on this label was correct at the time of label approval. Before using this product, confirm the current ESI from the APVMA website (www.apvma.gov.au/residues)

GENERAL INSTRUCTIONS:
CATTLE: To avoid operator insecticide contact when concurrent treatments are carried out, IO INCARCERATE should be applied last. Operators must wear gloves.

In a proportion of treated animals, some scurfiness may develop at the site of application. In most cases this scurfiness will disappear within three weeks of application of this product. Apply with recommended applicator.

The efficacy of this product was not affected by moderate rainfall when tested against cattle lice.

HORSES: Treatment with IO INCARCERATE will alleviate fly annoyance related behaviour including skin flicking, head and tail twitching and feet stamping for up to 7 days. No adverse reactions were reported in horses treated with deltamethrin at 5 times the recommended dose rate.

It is recommended that the product be allowed to dry thoroughly after application before handling the animal. However, if handling or grooming the animal immediately after application is necessary wear personal protective equipment as indicated in the safety directions on this label.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND THE ENVIRONMENT DANGEROUS TO FISH. Do not contaminate dams, rivers or streams with the pesticide or used containers.

AVOID CONTACT WITH FOOD.

SAFETY DIRECTIONS

Product is poisonous if swallowed. Will irritate the eyes and skin. Facial skin contact may cause temporary facial numbness. Avoid contact with eyes and skin. When using wear elbow length PVC gloves. If product on skin, immediately wash area with soap and water. After use and before eating, drinking, or smoking, wash hands, arms and face thoroughly with soap and water. After each day’s use wash gloves.

FIRST AID
If poisoning occurs contact a doctor or Poisons Information Centre. Phone Australia 131126. Additional information is available in the Material Information Data Sheet. For a copy phone (03) 9822 1321

DISPOSAL
Triple or (preferably) pressure rinse container. DO NOT dispose of undiluted chemicals on site. Break, crush or puncture and bury empty containers in a local authority landfill. If no landfill is available, bury the containers below 500 mm in a disposal pit specifically marked and set up for this purpose clear of waterways, vegetation and tree roots. Empty containers and product should not be burnt.

STORE below 30°C (Room Temperature) in original container, tightly closed in a safe place.
